Moron.

This is the SU HO PRIVATE EDUCATION INSTITUTE

Because of the zoo director who somehow "dreamt moment", the school is filled with animals.

Some might even call it a zoo instead of a school.

(Although there really is a zoo beside the school)

There's a strange rule within the school.

If your mission allows it, you must look after the animals within the school

Whatever! Let's go home!

Let us study!

Let us study!

Let us study

There's a rule that says the students who stay at this dormitory must pick an animal companion and live together with it.
Um... SO THE RULES SAY...
IF YOU DON'T TAKE IN A COMPANION ANIMAL... THEN YOU CAN'T LIVE HERE...
WHAT DO I CARE
DO I HAVE TO TAKE CARE OF SOMETHING SO BOTHERSOME?
SU... SUT... SUL... RULES...
DO I REALLY HAVE TO, HUH?

Would you be interested?
That background
is more scary!

IT'S BECAUSE OF THE SALT IN THE FOOD THAT MOST PEOPLE EAT.
IT RUINS THE ANIMAL'S FOOD CYCLE AND ANIMALS THAT EAT SALTY FOOD ARE MORE LIKELY TO BECOME DISEASE.

THEN WHAT DO WE DO?
SINCE IT'S NOT GOOD TO GIVE THEM A LOT, JUST GIVE THEM A TEENSY BIT.
DON'T GIVE THEM MUCH? LISTEN TO WHAT I SAY.

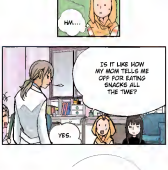
BUT DON'T THEY GET SICK OF THE SAME FEED?
But for Kiyomi's sake, it's not to spoil them. We're meant to be healthy!

THERE ARE SPECIAL TREATS.
YOU SHOULD ASK WHOEVER GIVES YOU THE FOOD TO GIVE YOU SOME TREATS.
IT'S JUST A TREAT, MIND YOU.

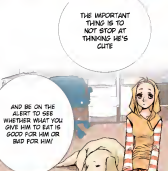
TREAT?
ANIMAL FEED IS CREATED WITH A BALANCE OF NUTRIENTS AND CALORIES THAT WERE THOUGHT THAT DEEMED NECESSARY FOR THE ANIMAL.
IF YOU GIVE THEM TREATS, THEN THEY WON'T EAT THEIR FOOD AND HAVE AN UNBALANCED DIET.

I SEE!

AW...



IS IT LIKE HOW MY MOM TELLS ME OFF FOR EATING SNACKS ALL THE TIME?
YES.



THE IMPORTANT THING IS TO NOT STOP AT THINKING HE'S CUTE.
AND BE ON THE ALERT TO SEE WHETHER WHAT YOU GIVE HIM TO EAT IS GOOD FOR HIM OR BAD FOR HIM.

I mean, I'm sure it's not that bad...

I don't know...
Let's just get it over with...

I'LL ASK YOU SOME SIMPLE QUESTIONS...

HAVE YOU EVER RAISED A RABBIT OR A HAMSTER?
NOPE.

DID YOU GET INSTRUCTIONS ON YOUR PEED AND VARIOUS THINGS TO WATCH OUT FOR?

OH! NO GET MORE THINGS!
NO, BUT THEY GIVE YOU TIPS.

IF YOU THOUGHT IT'D BE EASY TO RAISE A RABBIT OR A HAMSTER, THEN EXCHANGE THEM IMMEDIATELY.

RABBITS AND RODENTS ARE VERY RESISTANCE TO STRESS!
IF YOU JUST WANT TO TAKE OUT SOME CUTE PUPPY PICTURES, GO SCOUR SOME PICTURES AND PLASTE THEM IN YOUR ROOM INSTEAD.

THERE'S A TON OF THINGS I DON'T KNOW BUT I'LL TRY MY BEST.

SO THAT THIS GUY AND I CAN HAVE FUN.

AH~ AH SO CUTE.

IT'S A GOOD MINDSET TO HAVE.
?

DON'T FORGET THAT MINDSET YOU HAD WHEN YOU HAD YOUR FIRST PET.

THE HARDEST THING IS TO GIVE CONSTANT LOVE.

GIVE... CONSTANT... LOVE...

IT'S TRUE THAT WE'VE GOT AS FAR AS CALLING THESE GUYS "COMPANIONS",
BUT THERE ARE JUST AS MANY PEOPLE WHO CAN'T BOTHERTO RAISING AN ANIMAL HALF WAY THROUGH AND BETRAY THEIR TRUST.

ANIMALS CAN ALWAYS SMELL THE WEAKNESS INSIDE.
IF YOU FALL OUT OF LOVE WITH IT THEN YOU'VE ANGERED IT.
Ahh...
HEY, HEY, STOP SCARING THE KIDS.
I'M NOT SCARING THEM, IT'S THE TRUTH.
It's always how I said.
YOU'VE BEEN TALKING CONSTANTLY SINCE YOU GOT HERE.
WHAT?
What did you say to her?
I DIDN'T KNOW ANYTHING ABOUT LOVE BUT I'VE GOT RESPONSIBILITY.
...
AND THAT IS THE ANSWER ♥
LOVE AND RESPONSIBILITY.
TO LIVE IN HARMONY WITH OTHER LIVING BEINGS. THOSE TWO THINGS ARE THE ESSENTIALS TO GET YOU STARTED.
THE REST FOLLOWS NATURALLY IF YOU ACT ACCORDINGLY.
WHILE GETTING TO KNOW THINGS YOU DIDN'T KNOW ABOUT.
OKAY.
I'LL TRY MY BEST LIKE YOU SAID, DOCTOR.

... BUT THERE'S A LOT OF DOGS IN THIS AREA SO IT'S HARD FOR ME TO GIVE PIO A WALK...

Like always I can't have many friends in school this summer...

SO YOU'RE GIVING UP?

PARDON?

THINK ABOUT WHAT WOULD BE GOOD FOR YOUR ANIMAL

IF YOU DON'T KNOW THINGS ABOUT IT BY YOURSELF, THEN ASK AROUND.

...

WE LIVE IN A WORLD WHERE YOU HAVE EVERYTHING AT YOUR FINGERTIPS. WHY ARE YOU SO WORRIED?

YES... YOU'RE RIGHT.

AND YOU, WHERE DO YOU THINK WE ARE?

WOW- THIS REALLY DOES EXIST. A NEW HAVEN.

There's nothing preventing people from jumping around but you feel closer to them. There are also no cities with weather, mountain ranges, animals, and other things that you can find in the outside world. The scientists also don't bother to stay around.

- Chapter 4 -

Grandma is waiting. Let's hurry on!
Hurry~ Hurry~ ♫
It's so cute~ TEACUP PUPPY ♡
DON'T YOU KNOW THAT IT LOOKS CUTER WHEN IT'S SMALLER?
I WANT TO RAISE A PUPPY LIKE THIS ONE.
WHY DOESN'T OUR SCHOOL HAVE CUTE ONES LIKE THIS AND JUST THE DROOPY ONES?
Droopy ones are cute too!
I KNOW. IT'D BE A REALLY GOOD JOB RAISING ONE IF IT WAS A SMALL CUTE PUPPY LIKE THIS ONE.
Grandpa, Nunnie be cute too, but he's cute too!
I KNOW A SITE THAT SELLS TEACUP PUPPIES. SHOULD I ASK MY MOM TO GET ME ONE?
HMM? THOSE, HOW EXPENSIVE?
NO, THEY'RE NOT. THEY'RE NOT EXPENSIVE AT ALL.
COME ON. LOOK AT IT...
I DON'T WANT TO GET MY HOPES UP IF YOU'RE JUST INVENTING.
BRRRR
AWWW
ISN'T IT SO~ CUTE? I WANT TO RAISE A PUPPY LIKE THIS.
I DON'T WANT A HUGE SMELLY DOG THAT'S TOTALLY UNCUTE.
HMMM
Hmm
Hmm
HEHH~ YOU JUST LEAVE ALL THE BOTHERSOME STUFF TO YOUR MOM ANYWAY
WHAT?
LOSE SOME WEIGHT, YOU BITCH!
STAB
STAB
WHAT? WHO ARE YOU? WHY ARE YOU TRYING TO PICK A FIGHT?!
IF YOU LIKE SMALL ONES THAT MUCH, THEN LOSE SOME OF THE FAT YOU HAVE, YOU...

PIG!
WHAT...

WHAT?? YOU'RE THE ONE THAT NEEDS TO LOSE WEIGHT!
CRASH...
CRASH
PIG! PIG! PIG!!!
Hm? Who's calling me Pig?
AGREAH
GIRLS!

SOB
I'M NOT A BAD GIRL..

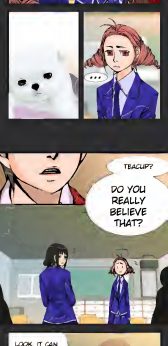
WHY?
THE TWIN DOCTORS TOLD ME.
THE "CUTE-O" GIRLS WERE BAD
?
IT'S HER FAULT THAT SHE CAN'T BE BOTHERED OR THAT THE THING SMELLS, RIGHT?
YES, YOU'RE RIGHT.

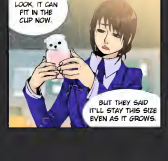
THEN SHALL I PUT A CURSE ON THAT GIRL?
CURSE?

.....
SHALL I?

YAPA~?



KYAAA~ IT'S SO CUTE!!
IT'S CUTE, RIGHT?
THIS IS THE FAMOUS TEACUP PUPPY!
WOW!
...
I'M IN LOVE



YOU'RE FREE TO TOUCH IT IF YOU WANT.
No
...

TEACUP?
DO YOU REALLY BELIEVE THAT?

LOOK. IT CAN FIT IN THE CUP NOW.
BUT THEY SAID IT'LL STAY THIS SIZE EVEN AS IT GROWS.

IT CAN'T BE.
WON'T IT WEIGH AT LEAST 1.5 KG WHEN IT GROWS UP?
THERE'S NO WAY THAT IT'LL BE ABLE TO FIT WHEN IT GROWS. I FIND IT SUSPICIOUS THAT THEY EXPLAINED IT TO YOU LIKE THAT. TAKE IT TO THE INFIRMARY.
I DON'T LIKE THE DOCTOR.
WHAT ARE YOU TALKING ABOUT?
THEY MAY BE A LITTLE WEIRD, BUT THEY ARE WELL-QUALIFIED.
AND DON'T YOU GET THAT PUPPY TO TAKE CARE OF IT?
IT'S SOMETHING A PUPPY WOULDN'T NORMALLY DO. IT'S NOT SOMETHING YOU CAN SAY AWAY FROM.
PLUS, IF YOU GET IT CHECKED AT THE SCHOOL INFIRMARY, IT'S CHEAPER THAN TAKING IT TO THE VET.
LISTEN TO THE CLASS PRESIDENT. YOU MIGHT HAVE BEEN RIPPED OFF.
...
AH- MAN. I REALLY DON'T CARE.
I JUST BROUGHT IT HERE TO SHOW OFF...

I DON'T THINK THIS CAN BE SOLVED JUST BY TALKING SO YOU SO TELL ME YOUR NUMBER.

WHAT HAVE YOU LEARNED AT THIS SCHOOL? COULDN'T YOU TELL WHETHER IT WAS HEALTHY OR NOT?
DO YOU THINK THIS LOOKS LIKE A THREE-MONTH OLD DOG? IT'S WEAK, HAS ROUGH FUR, AND THE NOSE IS DRY AS WELL.

THEN I'LL HATE
YOU FOR-EVER!!
I'LL HATE YOU
UNTIL I DIE!!
WAAAAAAHH

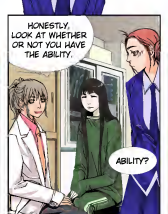
TO TAKE THAT DOG'S CURSE HOW BECAUSE OF THAT DOG IT'S SUFFERING...
....
Curse??
HURRY UP AND RELEASE THE CURSE, UNNI. I DON'T WANT THE PUPPY TO DIE.
Curse??
.....
I DON'T PUT CURSES ON ANIMALS.
Oh animals? Then what about humans??
DON'T GO OFF KILLING THINGS BY YOURSELF. IT'LL GET BETTER WITH CARE.
REALLY, I DON'T KNOW WHAT THEY WERE THINKING OF STARVING A PUP LIKE THAT...
THAT BRAT STUPIDLY GAVE THE INFANT PUP DOG FOOD, AND THE TINIEST MORSEL AT THAT.
IT WASN'T A TEACUP PUPPY? WAS THAT WHY IT WAS SICK?
THE TERM "TEACUP PUPPY" WAS A LITTLE ODD TO BEGIN WITH.
EVERYONE THINKS THAT A TEACUP PUPPY IS A SMALL DOG THAT CAN FIT INTO A CUP
BUT ANY NEWBORN DOG CAN FIT INTO A CUP UNTIL THEY'RE ABOUT ONE MONTH OLD.
EVERYONE SAYS THAT YOU CAN BREED THEM SPECIALLY OR SOMETHING BUT THAT'S NOT THE CASE.
OF COURSE!
TO THINK THAT A DOG CAN STAY THAT SMALL IS WRONG.
THEY'RE NOT DOLLS BUT LIVING, GROWING THINGS.
INSIDE THAT LITTLE BODY IS A HEART THAT PUMPS BLOOD AROUND ITS BODY, AND A STOMACH THAT PROCESSES ALL THE FOOD IT EATS.
Kyu~ Kyu~

THE DOG IN FRONT OF YOU IS ALIVE,
WHEN IT GETS OLDER, IT CAN EVEN BEAR A CHILD.
WOO!

SO IF YOU LOOK PAST THE CUTE EXTERIOR, YOU CAN SEE THAT IN AN INSTANT.

YOU MORONS DON'T UNDERSTAND THAT IT'S HARDER TO KEEP A SMALLER DOG THAN A BIG ONE!!
ARRGH!

THEN EACH TIME YOU SEE A PUPPY, WHAT ARE YOU SUPPOSED TO THINK INSTEAD OF "CUTE~ ♡ "?



HONESTLY, LOOK AT WHETHER OR NOT YOU HAVE THE ABILITY.
ABILITY?

THE ABILITY TO FEED IT UNTIL IT'S FULL. THE ABILITY TO PLAY WITH IT. THE ABILITY TO TAKE IT TO THE VET IF IT GETS SICK.

.....?
THOSE THINGS ARE OBVIOUS ABILITIES THOUGH.

NO... THERE ARE SOME PEOPLE THAT SAY THEY CAN'T AFFORD THE HOSPITAL FEE...
NO WAY...

THERE ARE SOME THAT GIVE IT HUMAN MEDICINE, SOME THAT JUST LEAVE IT ALONE, AND SOME THAT EVEN ABANDON IT.

IT'S QUITE CRUEL, ISN'T IT?

WHAT WAS THAT?

SO YOU NEED TO THINK DEEPLY ABOUT WHETHER TO INVITE IT AS A FAMILY MEMBER OR NOT.

IF YOU HAVE THE ABILITY TO LOOK AFTER A DOG BREED YOU WANT BY STUDYING UP ON IT,

THEN IT WON'T BE SO BAD RAISING AND LOVING A SMALL DOG.

YES. I'LL STUDY HARD.

Yah~ Wonder who Daddy

Mother Father Me

SHE'S KIND AND SMART. RIGHT? OUR BIT NA.

Pet Diary

by Kim Dong Hwa

~AND SOMETHING THAT MAY OR MAY NOT BE RELATED TO THE STORY~

This is the story of when Bear came to our house...
It's not that of a mystic, but we'll start here.

It was when I was going to an after school program in the night so the time was about around 9pm or 10 pm...

I didn't do that because this was a comic. I really don't suit a scream like that in the middle of the night.

Because this fellow was in the blankets

our house had always done this.

I love it!
I've lost count of how many dogs, cats, and other breeds I've raised...
BUT I DON'T THINK IT'S VERY HEALTHY IS IT OKAY?
LIKE, IT'S SLIGHTLY OFF...
I SCREAMED BEFORE AND IT DIDN'T DO ANYTHING.

IT WAS LIKE THAT FROM THE START! YOU SAW THAT WHEN YOU FIRST CAME HOME! I DIDN'T WANT TO SAY ANYTHING BECAUSE I DIDN'T WANT TO HURT YOUR FEELINGS... I DIDN'T QUITE WANT TO SAY IT!
IT'S THE REASON I WAS GIVEN HER FOR FREE!

NO... IT'S STRANGE. SOMETHING'S NOT RIGHT. AND IT'S TOO SMALL. HOW OLD IS THIS PUPPY?
DO IT GET ITS SHOTS?
HANG ON, WAIT. AREN'T YOU SHIFFLING?
THIS IS SHOT.

WHAT ABOUT FEED?
I just don't get how the vet thought it was fine for her.
WE GAVE IT MILK TODAY SO SO BIG SOONE TOMORROW
Milk after things? Does it come out there?

MILK? WHY DO YOU GIVE IT MILK... IT MIGHT NOT BE TOLERATING HIS DIGESTIVE SYSTEM OR BE MIGHT HAVE DIARRHEA LATER.
HEY, ARE YOU CRAZY?
HEY.
HEY.
YOU REALLY AREN'T WORRIED ABOUT HER AT ALL? YOU'RE NOT WORRIED? ARE YOU REALLY CRAZY?

There's a lot of things that worry me but his face is the cutest. (you can only see so much because the picture's like 1mb) guess because it's this cute, the things that worry you stand out.

Even if you adopt an unhealthy puppy, it will get better with good care, but there's a ton of things you need to do to make it that healthy.

I GUESS I'M AT THE BEGINNING OF THE "CHASING" STAGE. MAYBE I'M JUST NOT MEANT TO BE WITH ANYONE.
I'M NOT SURE IF I'M GOING TO BE ABLE TO HANDLE THIS ALL ON MY OWN.
BUT I CAN'T JUST TOSS THE THING OUT NOW...

I GUESS THERE'S NOT A LOT OF THINGS I CAN DO AGES FROM LOOKING AFTER IT PROPERLY... BUT HOW CAN I, WHO DOESN'T LOOK AFTER EVEN MYSELF WELL, LOOK AFTER THIS LITTLE PUPPY?
AND A SMALL DOG THAT YOU RAISE INDOORS DOESN'T PIT ME? IT'LL BOTHER ME AND MAKE ME PLAY WITH IT CONSTANTLY, AND IT'LL PROBABLY GET ANGRY... AT IT. AND, I NEED TO WASH THIS GUY'S HAIR WHEN I DON'T EVEN WASH MY OWN HAIR REGULARLY. LOOKING AT THE BREED, I THINK IT'S A MIX, BUT I THINK IT TAKES AFTER ITS MOTHER SO I CAN'T JUST LEAVE IT BE!

It still does that now but it really does sigh at the most coincidental times.

And so, like always, we brought in another cute little puppy that seemed sick somehow. He doesn't react to whatever we do and sighs at the most coincidental times, so much better resistant hers to be smart and cute than "dork".

I'M SORRY IT'S NOT FUNNY... I WAS WORRIED FOR A WHILE, BUT IF I DON'T STOP HERE, THEN I'LL... I'LL END UP CRYING WHILE I'M TYPING SOMETHING LIKE THIS! THAT'S WHEN I'LL COME AGAIN.

- Chapter 19 -

Ah... That rude brat!?

I'm not saying that Han Ryu Hyung is bad...

Just... I'm like this...

Heart throb!

Thanks that, Han ryu is bad

We're not saying that! Jaeyoon is like others.

But don't you think how a person sees an animal, would be how he/she treat the same others people?

For example, you had to live with a rabbit.

There are various ways to learn about how to take care of a rabbit.

What your rabbit likes to eat, what he doesn't,

when he likes to run around, when he likes to sleep, What part his he doesn't like to play

All of these, you won't know unless you try hard to observe it.

Ha? No I is guessing wrong again?

BOOT

.....

The animal's personality comes out after you've observed it for a while

I think humans are the same.

You know what a person may like or dislike after observing them for a while.

But this person think of what you may be to him within this time.

.....

Tonight a load of that trash just will focus. No doubt about it!

Thank you

I'm off first.

Wait a minute, and let's go together.

What?

WHAT ARE YOU TALKING ABOUT?
I'M NOT IN CHARGE OF HUMANS.
I'M HERE! I'M HERE! AND ALIVE!
NO, I JUST TAGGED ALONG SO I'M NOT REALLY THAT BUSY.
NOW THAT I THINK ABOUT IT, WHY ARE YOU TWO IN THE SUPPLY CLOSET?
YOU'D GET YOUR SUPPLIES FROM THIS ROOM USING YOUR STUDENT ID'S, RIGHT?
JIN CHECKS THE DATA RECORDED TO SEE IF ANYONE TOOK TOO MUCH OR NOT ENOUGH SUPPLIES.
IF YOU'RE CHECKING THE ENTIRE DORMITORY, THAT'S BE A LARGE AMOUNT OF STUDENTS. DO YOU CHECK THEM ALL?
WE TRY OUR BEST WITH STUDENT VOLUNTEERS AND THE CURRENT SYSTEM, BUT IT IS A LITTLE DIFFICULT...
AH, I THOUGHT...
BUT HE'D RATHER PUT IN A LITTLE EFFORT NOW THAN TO SEE A SICK ANIMAL LATER ON.
HE'S A LITTLE RUDE AROUND THE ROOKIES AND PEOPLE HE'S NOT FAMILIAR WITH, BUT HE'S ALSO KINDHEARTED. THAT GUY IS A BIT SLEEPHEAD TO BUT HE'S A GREAT VET WHO TRIES HARD TO TAKE CARE OF THE ANIMALS.
HE KNOWS THAT THE OWNER SUFFERS AS WELL IF YOUR PET GETS SICK. HE'S TRYING HARD TO PREVENT THE STUDENTS FROM HAVING THOSE PAINFUL MEMORIES.
.....
DO YOU KNOW ALL THIS FROM EXPERIENCE?
WELL.. WE ARE BROTHERS AFTER ALL..

Rabbit Food!

Well try to address this in the story after this one - assume for volume at this in long, but Rabbit Rabbit Rabbit This is a novel I know this one to mother but I noticed this a variant and written this down from the notes of former owners. There are a few things that I've noticed that I've found to be important. So the most important thing is changes want to cook for Rabbits Rabbit Rabbit Rabbit

HUH? Did such a thing exist? Is what you are all supposed to be thinking now, but due to the artist having to pull her leave of absence ahead of schedule, I tried my best here so please read with care even if it isn't very good... ; A ;

Pet Diary

< A little different but somewhat the same, cool, I'm sorry!! >

.....

Food bought urgently at a local petshop.

It's in English, but I'm not reluctant as normal human

I have no idea how much to give you, cool, how much do you want to eat?

I literally no way to get a response.

...and so I turn to the internet

What's this... everyone's eating different things. Who's lying about's how to be...

Is it enough? Why don't you need more?

Can I eat shoes, socks and

Or not enough

...I have no idea.

And the gum dog treat I bought...

MEH!

AAAAHHHH!! OOO!!

THE WAY YOU TALK IS A MESS!!
THAT'S NOT IT AT ALL!!
I'M SORRY!!
I'M SORRY!!
I'M SORRY

Are there people that will make the same stupid mistakes as I did?

If you're confused or wonder my about similar things, read below.

1. Check the age.

What is meant in age nowadays is translated into Korean and are divided up depending on the ingredients and the weight. I wonder as whether they go by the age of the dog or by the weight, so I asked the vet. They told me, typically when I turn of age, under 1kg, is a Puppy. At least 2 years old, at least 6kg, is an Adult. However, there are differences between breeds, so even if belonging in a year old, there are times when it is an Adult. It's a pity, but it's comfortable. So I assess a decision on your dog and ask about the correct feed and the amount you should give at your vet.

The reason the feed is divided up into Puppy and Adult is to allow small puppies to get the nutrients to grow. Most dogs you bring it will be puppies, so you will probably need Puppy feed, right?

2. Prepare a scale

When going to check on health, it's important to know how much your dog weighs. I weigh him at the vet every time I take him.

I don't have a scale personally. I'll plan to buy one when I get the money, but I'm poor right now.

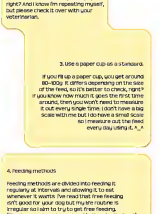
Every feed has different amounts to give depending on the dog's weight, so please check it. There could be some that don't have this information, so it's better to check before you buy it, right? And I know I'm repeating myself, but please check it over with your veterinarian.

3. Use a paper cup as a standard.

If you fill up a paper cup, you get around 180~200g. It differs depending on the size of the feed, so it's better to check, right? If you know how much it goes the first time around, then you won't need to measure it out every time. I don't have a big scale with me but I do have a small scale so I measure out the feed every day using it. ^_^

4. Feeding methods

Feeding methods are divided into regularly feeding a set amount and allowing it to eat whenever it wants. I've read that the feeding isn't good for your dog but my vet nature is regular so I aim to try to get the feeding. (The dog may be asleep when it's time for its food.) It's best to choose a plan that suits your life and the dog's health. For detailed explanations, please visit pet sites, cafes, or blogs, search the internet, or ask your veterinarian. I know I'm repeating saying to ask your veterinarian, but that's the most safe method.



5. Observe the dog's poop.

It's the easiest and the most important way to check on the dog's health. I know you might not like it because it smells, but please observe it carefully. There's too much food if the poop is runny, and there's not enough food if it's hard.

You need to check if you are giving the right amount of food by observing the dog carefully.

Adding on, you need to see what other treats it may be eating aside from its regular food. Dooni's poop was runny for a while and so I thought I may have been feeding him too much, but I wasn't sure, but it was because my father gave it table side dishes while he was eating dinner.

After a few battles, we've managed to prepare Dobi's special treats instead and promised not to give up table dishes to Dobi. When we visit the vet now, we get compliments as Dobi's poop~

What Ddol hears recently...

HE'S TOO BIG.
HE WON'T BE PRETTY IF HE'S TOO BIG
SO DON'T FEED IT TOO MUCH FOOD.

↑ What guests say to Ddol when they visit

pik

Leave it

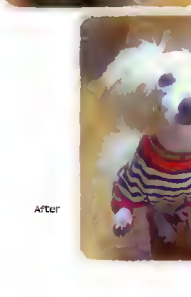
↑ Can't say what's in my heart

Of course, it was small when it was a puppy, so it'll get big since it's growing! It's still pretty now! It's plenty pretty!!! I checked when I gave it a bath! Why do I have to give it a diet when it's not obese?

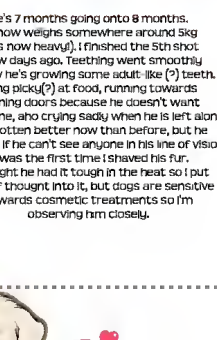
.... Is what I want to say. ㅠ.ㅠ

Ah, I almost forgot.
There were people wanting to see how the puppy really looked like so I'll attach the photos here.

Ddol just had his hair done recently!! >◇<



Before



After

He's 7 months going onto 8 months.
He now weighs somewhere around 5kg (he's now heavy!). I finished the 5th shot a few days ago. Teething went smoothly so now he's growing some adult-like (?) teeth. Being picky(?) at food, running towards opening doors because he doesn't want to be alone, also crying sadly when he is left alone, has gotten better now than before, but he still cries if he can't see anyone in his line of vision. It was the first time I shaved his fur. I thought he had it tough in the heat so I put a lot of thought into it, but dogs are sensitive towards cosmetic treatments so I'm observing him closely.

I'll come visit you again~ Thanks for reading.

A more detailed reason on why Pet Diary is taking a week break

Hello, it's zhen who does the art graphics part. Pet Diary is having to rest another week. I finished 70% of the script when the monitor started acting up and I couldn't get any work done. I don't like resting a week but this accident happened right before the deadline...

I'm sorry, once again.

Please enjoy yohan's Ddol story.

HUH?

I WAS JUST TRYING TO PET IT. I WASN'T GOING TO DO ANYTHING BAD TO IT.

FOR EXAMPLE, LET'S SAY THAT YOU RAN INTO A GIANT ALIEN. WHAT WOULD YOU DO?

INTERFROG.AVI

WHO CARES IF YOUR INTENTIONS ARE GOOD OR NOT? THE SMALLER ONE IS GOING TO BE SCARED.

?

I DON'T KNOW BECAUSE I HAVEN'T SEEN AN ALIEN.

THEN, LET'S SAY YOU RAN INTO A TALL, BIG FOREIGNER.

TWUNG

HUAH, HUAH...

IT'S THE SAME WITH CATS. IF A STRANGE, BIG THING THAT IT CAN'T TALK TO STARTS TO COME AT IT, OF COURSE IT'LL GET SCARED.

... BUT I WANT TO STROKE IT.
NO!
.....
meow~ hiss~
WHAT DO YOU SAY IN ENGLISH TO SAY HI?
?
"HI... HELLO"?
SO YOU'LL NEED TO STUDY HOW TO SAY HELLO TO A CAT!
?
HELLO TO A CAT?
You're not from this story, which I'm not going to hurt me. The weapon on about coming its back is a little different than I have used to all of its days.
To get friendly with dogs, you have all the hurts, not its nasty skills, and then stroke it out.
As a cat's body is different, it gathers from strangers its secret to coax toy, the appetite to overyou'll, but cats are generally not that happy to be touched from strangers and social talking directly but rather use a form of "nibble."
So if you want to get friendly with a cat, then studying on how to become friendly with one like cats would be if you wanted to get friendly with a foreigner you would study English.
LIKE STUDYING ENGLISH?
AS AN EXAMPLE.

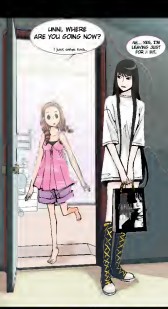
- Chapter 11 -



I'LL BE BACK.
Where is she going by herself?
Sneak
She's gonna detour into Hills where there aren't many people.
Ah! I SAW THE WITCH.
IS SHE GOING OFF TO CURSE SOMEONE?
She's even not sure size.
I WON'T CURSE ANYMORE.
Then what is it the case?
Let's follow her!
I want to see~♥
TAK
What's that? Preparations for her incantation?
Ah? She's just kidding?
Ah!

Purr

THEY'RE QUITE CUTE, AREN'T THEY?
Chirp?

AH... UHHH...
IT WOULD BE BAD IF THE CATS RAN AWAY FROM BEING FRIGHTENED OF US, SO LET'S BE QUIET.

Nyahhaa!!
Chirp
THERE'S SURPRISINGLY A LOT.

UNFORTUNATELY, THERE ARE A LOT OF WILD ANIMALS IN THIS SCHOOL.
IS IT BAD FOR THEM TO NOT HAVE OWNERS?

WHERE WOULD THESE ANIMALS WITHOUT OWNERS FIND FOOD IN A CITY WHERE NO ONE CARES FOR THEM?
THOSE CATS EVENTUALLY DO RIPPING UP RUBBISH BAGS LOOKING FOR FOOD EATING THINGS THAT THEY NORMALLY WOULDN'T IF THEY WERE IN OUR CARE, AND I'D SAY BAD.
NORMALLY, THEY WOULD EAT FOOD THAT PEOPLE HAVE THROWN AWAY OR THAT HAVE BEING BAD AND MIGHT MISS THAT ARE LIVING IN UNCLEAN SPACES.

BIT NA, THAT'S WHY A LIFE THAT CAN LIVE UP TO 16 YEARS
CAN END AT 2 OR 3 YEARS.

SO IT'S NOT GOOD FOR THEM TO HAVE NO OWNERS.
I WANT TO GIVE THEM SOMETHING THEN. OR LET'S JUST TAKE THEM INTO OUR ROOM.

BIT NA, WE CAN'T BRING THEM ALL INTO OUR ROOM.
STUDY?

AND BIT NA, YOU HAVE TO STUDY BEFORE/AND IF YOU WANT TO TAKE CATS HOME.

YOU WERE TRYING TO GIVE A YOUNG KITTEN MILK BEFORE, RIGHT?

THERE ARE INGREDIENTS IN MILK THAT HUMANS DRINK THAT CATS CAN'T PROCESS.

BECAUSE OF THESE INGREDIENTS IT MAKES THEM THROW UP OR HAVE DIARRHEA. IT'S ESPECIALLY BAD FOR STRAY CATS THAT DON'T HAVE OWNERS WHO WOULD NOTICE THIS AND GIVE THE CORRECT TREATMENT FOR IT.

BUT I SAW IT ON TV! CAN'T YOU GIVE KITTEN OR PUPPIES MILK?

This is the TRUTH

NOT JUST CATS, BUT MOST OTHER ANIMALS CAN'T PROCESS HUMAN MILK

IT'S ONE FAIRLY COMMON THOUGHT. COLD MILK IS ESPECIALLY BAD.

THERE ARE CASES WHERE THEY CAN STOMACH-ACIDS AFTER DRINKING IT ONCE, BUT SOMETIMES THERE AREN'T. IT'S DIFFERENT PER SPECIES BUT IT'S NOT SOMETHING YOU SHOULD GIVE REGULARLY.

THERE ARE MILK ESPECIALLY FOR CATS SO IF YOU HAVE TO GIVE IT, THEN GIVING THAT IS THE SAFEST. BUT FOR KITTENS WHO MOVE AROUND A LOT, IT'S BETTER TO GIVE THEM KITTY FEED OR CANNED FEED, RIGHT?

...

WHISPER

I'M SORRY, I DIDN'T KNOW. I'LL COME BACK AND GIVE YOU GOOD THINGS TO EAT.

I CAN COME NEXT TIME TO FEED THEM. FOOD, RIGHT?

OF COURSE...

AH... NO. THAT WON'T WORK. THESE ONES ARE GOING TO BE CAPTURED TOMORROW

Milk! Wipe it from your memories!

During a cute film somewhere, you've probably seen a scene where a huggable animal is poured milk. It may be cute, but to young animals, that is a very dangerous act. For both dogs and cats, they do not have any means to process one ingredient of milk: lactose (also called milk sugar).
They cannot process it and get diarrhea or throw up. This act, especially to young animals, is dangerous.
There will be people commenting, "Well, my pet didn't get sick" when they read this. In those cases, think "how lucky they didn't get sick" and don't give it to them any more. Milk is not something you should give repeatedly to animals. Any dairy products is bad for them as well. The best solution is milk developed for kittens and puppies. In addition, I've read somewhere that it's okay to give them milk with low lactose. I suppose it would be okay as it has removed the dangerous ingredient, but if the animal is not in the stage where it needs milk, I think that milk as a whole is not needed. So if you do wish to give milk to your animals, please consult your veterinarian and then decide.

I repeat. Any food that humans have is bad for animals if you feed them one because they were showing interest, and they didn't have any side-effects, you may think it's okay. Just remember that you're reducing your pretty animals' lives slowly. If you think that, then I'm sure you can resist their cute eyes wanting food.

And one more,
Thank you to the people that give food to the strays.
As the people that know this will know, to repeat, the sodium or grease in human food or rotting food that these strays receive reduce these strays to 2~3 years (there are cases where they live less than that).
So if you care about these strays and want to give them food, don't give them milk, sausages, or tuna cans.
Milk can't be processed, and sausages and tuna cans have high sodium. The best solution is can feed or dry feed developed for cats if it's bothersome to go buy these feed each time, then get the can of tuna (or any other can food), parboil [scald] it or pour boiling water on it and squeeze the water out from it. The sodium and grease will be reduced considerably. I know this may also sound bothersome but from someone who gives food to strays, tuna itself has a lot of fat and it's not a suitable food for cats. But in emergencies, I think that cans without sodium and grease would be helpful quite a bit. To the cats living in these dangerous spaces, please give them food that is safe to not let your kind heart go to waste. I promise that you'll get repaid for all your kindness somehow, one day.

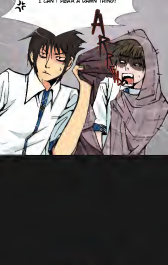
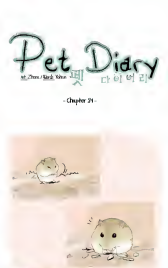
- Chapter 21 -





JUST TALK CLOSE TO ME! I CAN'T HEAR A DAMN THING!
AAAA

Pantsed again?

I HATE HIS FACE!

OKAY, OKAY, LET'S ALL CALM DOWN NOW AND TALK THIS OVER. TALK.

HAN YOU ISN'T A SCARY PERSON.
Just a little, non-existent.
.....

AS YOU CAN SEE, HE CAME TO ASK HOW HE COULD BE FRIENDLY WITH HIS HAMSTER.
Huh?

YOU MIGHT NOT BE A BAD PERSON LIKE JEON YONG SAYS

BUT YOU'RE DEFINITELY NOT A GOOD OWNER FOR A HAMSTER.

A HAMSTER IS ON THE LOWER RUNG OF THE FOOD CHAIN.
AND SO IT'S IN THEIR NATURE TO BE WARY OF THEIR SURROUNDINGS AND BE CAREFUL OF ANYTHING THAT COMES CLOSE TO THEM.

IF YOU ACT LIKE YOU DID BEFORE TO HAMSTERS, THEN OF COURSE THEY'LL BE SCARED OF YOU. YOU DESERVE TO BE BITTEN.
HU HUH, I THINK YOU'RE GOING A BIT FAR...

SCARED?
I'M THE ONE GETTING BIT HERE.

I'M THE ONE SEEING BLOOD HERE, SO DOES THAT MEAN I'M LOWER THAN A HAMSTER?

That's what you're scared of, right? I think, anyway. Anyway, the point is clear.

.....
A RAT WILL BITE WHEN CORNERED - DO YOU KNOW THE SAYING?

THE HAMSTER'S NOT BITING YOU BECAUSE IT HATES YOU, BUT BECAUSE IT'S AFRAID OF YOU.
BECAUSE THAT'S THEIR FINAL WEAPON.
THAT DOESN'T ONLY APPLY TO HAMSTERS EITHER.

YOU CAN'T GO BY WITHOUT GIVING ANIMALS THE FAITH THAT "I (A HUMAN) AM NOT A HARMFUL OBJECT TO YOU (AN ANIMAL)."
YOU NEED TO TRY ESPECIALLY HARD IF YOU'RE LIVING IN THE SAME PLACE.
.....

ENGLISH ON THE SHADOW. JUST TELL ME WHAT I NEED TO DO.

I write 40 lines writing assignment

JUN YONG, YOU TELL HIM.

EH?

THIS GUY RAISES A RABBIT? HOW WOULD HE KNOW?

YOU YOU SAY YOU'RE AN OWNER.

BUT WHAT HAVE YOU REALLY DONE FOR THE HAMSTER?

...?

HAMSTERS ARE DIFFERENT FROM RABBITS. I DON'T CONSIDER THEM PETS AT ALL. THE SAME, BUT MOST DON'T ATTACK PEOPLE THAT CARE ABOUT THEM AND LOVE THEM. THEY'RE QUITE CALM TO THEM.

YOU'RE SO ANNOYING!

IF IT CONSTANTLY ATTACKS YOU, THEN ISN'T THERE A PROBLEM WITH YOURSELF? IF YOU DON'T SHOW LOVE TO ANIMALS, THEN IT'S NO USE.

YOU ARE SO ANNOYING!

THE WAY TO STOPPING YOUR LOVE FROM BEING ONE-SIDED IS TO TAKE TIME CONSIDERING AND ANALYZING THINGS. LIKE CLEANING THE CAGE SO IT WON'T SMELL, GIVING IT NICE FOOD AND WATER, AND PLAYING WITH IT CAREFULLY SO IT WON'T GET CLAUSTROPHOBIC OR MAYBE SOMETHING NICER SO IT'D LIKE.

YOU'VE BEEN TAKING CARE OF IT FOR A WEEK NOW AND YOU STILL DON'T KNOW ANYTHING? YOU'RE JUST BLIND CLOSED TO MOTHERING THE ANIMAL'S TRUST IN YOU.

HOW MANY TIMES HAVE YOU SHOWN THAT TRUST TO YOUR HAMSTER?

YOU'RE JUST AN ANNOYING OLDER BROTHER WHO'S ALWAYS RIGHT.

.....

JUN YONG CAME TO OUR ROOM MULTIPLE TIMES AND ASKED

HOW TO TAKE CARE OF THE HAMSTER THAT'S WITH HAN IN HIS ROOM.

HOW OFTEN YOU SHOULD CLEAN THE CAGE.

WHAT YOU CAN'T FEED IT. WHAT YOU NEED TO DO TO NOT ANGER IT. IF THERE ARE ANY OTHER DANGERS SO I DON'T HAVE TO WORRY ABOUT IT. I'M NOT GOING TO ASK ABOUT ALL ABOUT THOSE THINGS. TO SEE THAT YOU ARRIVENT BOTTEN ANY FRIENDLIER WITH THAT HAMSTER? I'M NOT INTERESTED IN THAT SAME THING AGAIN!

THAT JUN YONG DID! I'M SURE HE'S BEEN TAKING CARE OF IT. NOW, RIGHT? SO THAT'S WHY YOUR HAMSTER FEELS SAFER WITH JUN YONG RATHER THAN YOU. YOU'RE COMPLAINING AFTER DOING SOME WORK?

AN BEH

I'LL DO IT, DAMN IT!

SHOUT

SHOUT

I'll watch over again.

I'LL DO IT FROM NOW ON! IF YOU'LL STEAL IT, I'LL KILL YOU!

OKAY...

Comicsee

They are all cute at the start. There is practically nothing that's not cute when they're a baby. You would have brought one home because it was cute to look at. But the time we like depending on love is shorter than you think. It will grow, and no matter how cute it may be at the start, you will get used to it and it will become normal. On top of that, you're busy and have lots of things you want to do but can't because you're taking care of it from its most basic needs like food, water and waste, to many more. Instead of asking the family members to do the troublesome stuff, isn't it better to do all these things yourself and keep the love between you and your pet? It would be different for each person but personally, I believe that love between a pet begins from thinking of what things you could do to care for it.

In the case of the hamster, a hamster is small, weak, and is a very sensitive animal. There are a lot of things you have to do for it, and it will get that much easier to get bored of it. Once you do get bored of it, because of it being small, weak and sensitive, it will die. These animals will see your palm as the hand of death if you're not careful. The average life of a hamster is 2~4 years and even if it does get sick, it doesn't get to go to the vet very often. It's an animal that can lose its life to something that's not a very big accident to us. Look at it. It's really weak, to make you feel sorry for it, right? How many things can you do for it?

Also, there are people that mention the cruel things that hamsters do, but think carefully whether that is actually the hamster's fault if you researched on hamsters before you started raising it, then you should have learned that you put each hamster in each cage after it's fully grown. If it does have babies, they tend to move and try to touch various things that have light, sound, or curiosity and are dangerous as well

'To put your hand over a hamster is called 'handling.'
If you get bitten when trying it, think of what you were doing before.
Any websites, blogs, cafes, etc say that the new hamster needs time to adjust to its new surroundings first, right?
Have you learned the way to slowly affirm to the hamster that you are its owner?
And did you do everything as you were supposed to?
Did you perhaps wake up a sleeping baby and try to touch it?
Did you approach it quietly and gently?
Did you perhaps approach from behind suddenly?
Hamsters hate showing their bellies. Did you perhaps try to flip it? It hates to be touched, so did you force to stroke it?
There are more things when it comes to handling and many more to do

To show your love by constantly learning and always challenging yourself, you will see the cute part in your animal that you can only see as it grows up, and isn't living together happily the greatest form of love?

Make it so that the price of the hamster doesn't become the price for your hamster
